

Statement on Halal and Kosher

Vaassen, 21APR2021

Dear customer,

Based on suppliers declarations on all raw materials used at Royal Vaassen Flexible Packaging, we declare that the products made at Royal Vaassen Flexible Packaging are not Kosher/Halal certified.

We are able to confirm that all products are produced without animal based raw material, like meat, fish or milk and their derivatives.

We are also able to confirm that substances from purely alcoholic fermentation of e.g. grapes are not used as intentionally added ingredients.

Nevertheless we can't exclude the presence of traces of all these substances, in the amount of PPM, deriving from raw materials impurities or coming from manufacturing equipment or processes.

Yours faithfully,

Marnix de Raaf
Compliance Engineer
